PROFESSIONAL SUMMARY

Full Stack Developer with 1.5+ years of experience building scalable web applications, enterprise SaaS platforms, and interactive marketing websites across 15+ client projects. Skilled in React.js, Next.js, JavaScript, and React Native, with expertise in responsive UI development, REST API integration, performance optimization, and cross-browser compatibility. Experienced in CMS-based development, reusable component architecture, and delivering production-ready solutions in agile environments while managing multiple concurrent projects.

PROFESSIONAL EXPERIENCE

- Turbostart, Full Stack Developer** 04/2025 – Present | Bengaluru, India
- Delivered end-to-end frontend development for enterprise SaaS platforms, AI products, luxury brand websites, interactive marketing platforms, and mobile applications across diverse industries. Built scalable and responsive web applications using React.js, Next.js, JavaScript, and modern component-based frontend architecture.
 - Developed interactive user experiences with advanced GSAP and Framer Motion animations, including immersive landing pages, data-driven visual sections, and high-performance marketing interfaces.
 - Developed mobile application interfaces using React Native with reusable UI components, multi-step flows, and responsive layouts.
 - Integrated third-party services and tools including Strapi CMS, Mixpanel, Salesforce, content management, and business workflows.
 - Collaborated with product managers, UI/UX designers, and backend teams to deliver scalable, production-ready solutions in agile development environments. Managed parallel delivery across multiple active projects while maintaining high standards in code quality, responsiveness, performance optimization, and timely releases.
- Teceze, Frontend Developer** 05/2024 – 10/2024 | Chennai, India
- Developed and maintained responsive web interfaces for SaaS-based applications using React.js and modern JavaScript frameworks with a focus on performance optimization and code maintainability.
 - Collaborated closely with UI/UX designers to convert wireframes and design systems into reusable, production-ready React components.

NOTABLE PROJECTS

- Techflu - Laptop Rental Platform, React, Node.js, React Native, Tailwind CSS, REST APIs** 04/2026 – 05/2026
- Designed and built a full-stack laptop rental marketplace (comparable to Amazon / Rentomojo) with three independently scoped application flows.
 - User Flow: Product listing and discovery, end-to-end order placement, secure payment integration, KYC verification, and a real-time order tracking dashboard from dispatch through delivery.
 - Super Admin Dashboard: Comprehensive operations panel for product management, delivery partner creation and assignment, KYC approval, order and cancellation management, and live delivery tracking.
 - Delivery Partner App: Mobile browser-based application (modelled on Zomato/Swiggy partner workflows) — credential-based login, delivery acceptance, live location tracking, proof-of-delivery capture, and profile management.
- Lighthouse - Luxury Brand Web Platform, Next.js, React, Strapi CMS, REST APIs, Tailwind CSS** 02/2026 – 03/2026
- Led the end-to-end development of a luxury brand web application using React.js, Next.js, and Strapi CMS. Built responsive, high-performance frontend interfaces with modern UI/UX standards.
 - Developed the Strapi CMS backend with custom content models, APIs, and dynamic content workflows. Integrated frontend and CMS APIs for seamless content-driven rendering across the platform.
- Climaty AI - Carbon Intelligence Platform, React, Next.js, GSAP, Framer Motion, Tailwind CSS** 07/2025 – 09/2025
- Developed interactive, animation-driven frontend experiences using React.js, Next.js, and GSAP. Built responsive and performance-optimized UI components across multiple platform sections.
- Realm - Interactive Marketing Website, React, GSAP, Framer Motion, Tailwind CSS** 06/2025 – 06/2025
- Built Realm's complete marketing website featuring smooth, high-performance animations, interactive sections with full mobile responsiveness.

EDUCATION

- B.Tech - Information Technology, St. Joseph's Institute of Technology** 2020 – 2024 | Chennai
- CGPA: 8.17

TECHNICAL SKILLS

JavaScript Frameworks & Libraries React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, TypeScript	UI/UX Design & Styling Tailwind CSS, GSAP, Framer Motion	Mobile Development React Native (iOS & Android)	Backend & CMS Node.js, Express.js, Strapi CMS, REST API
Database MongoDB, PostgreSQL, SQL	Tools & Version Control Git, GitHub, VS Code, Postman, AWS, CI/CD Pipelines
